

## Press release

Vienna, November 5, 2022

### **Croatian Designer Outlet receives Austrian Green Planet Building® Award** **Sustainable building "Made in Austria": Outlet shopping in Zagreb is now energy-efficient**

Inspired by historic marketplaces and streets, the outlet in the Croatian capital is designed as a typical Croatian city. High-quality materials were used for the traditional design elements. ATP architekten ingenieure ensured a resource-saving energy concept. It was the first outlet in Croatia to receive a BREEAM certificate for sustainable construction.

Energy efficiency and the supply of renewable energy are the focus of **Austrian Green Planet Building®** (AGPB). AGPB transfers the objectives and strict criteria of the national climate protection initiative **klimaaktiv** for the building and real estate industry to an international level. The outstanding achievements of Austrian planning offices, consultants, construction companies and production plants abroad in the field of sustainable building – Austrian Green Planet Building® distinguishes them.

AGPB is an umbrella brand supported by the Federal Ministry for Climate Protection, Environment, Energy, Mobility, Innovation and Technology and AUSSENWIRTSCHAFT AUSTRIA.

**The Designer Outlet in Zagreb, Croatia, receives the Austrian Green Planet Building® Award: its energy concept is the first outlet in Croatia to receive BREEAM certification for sustainable building.**
